Step by Step Guide how to buy DRC if you don't have cryptocurrency or if you do have cryptocurrency.

The First section is if you don't have cryptocurrency.

If you have cryptocurrency please scroll down to part 2.

How to Buy Divine Ray (DRC)

Section 1. How to Buy DRC for those that don't have cryptocurrency.

Step 1 — Download the Keplr Wallet

Go to: https://www.keplr.app/

Install the browser extension or mobile app.

Write down your 12-word recovery phrase and store it safely.

If you lose it, you lose your wallet permanently.
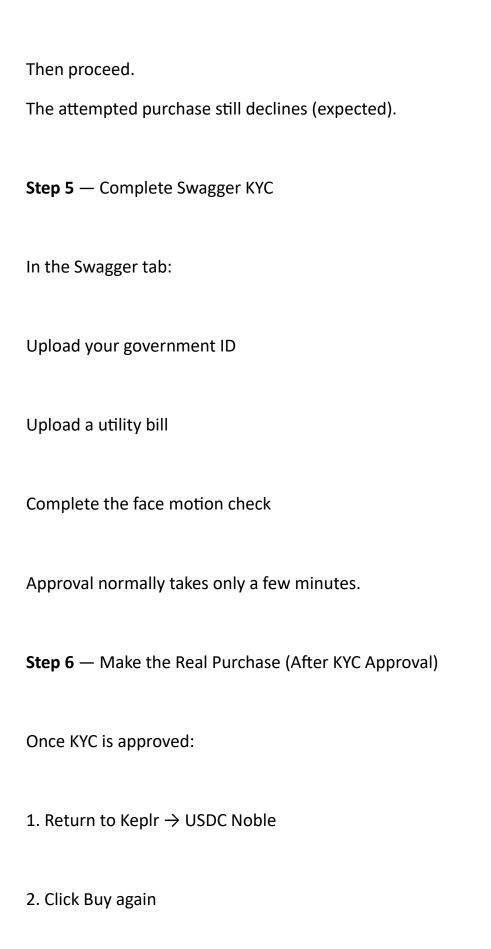

Step 2 — Open Keplr and Find USDC (Noble)

In Keplr, scroll until you find USDC — Noble.

Click on USDC Noble.

Step 3 — Click "Buy" (Swagger On-Ramp)

Select Buy.

Choose Swagger as the provider.

Step 4 — Make a First Purchase Attempt (It Will Decline)

This step is intentional — it triggers Swagger's KYC flow.

1. Enter any amount of USDC.

2. Complete the transaction attempt — it will decline.

3. A Swagger tab opens.

IMPORTANT: They will ask for your Receiving Address

Go back to Keplr → USDC Noble

Click Receive

Click the Copy Address icon

Return to Swagger and paste that address as the receiving USDC Noble address.

Then proceed.

The attempted purchase still declines (expected).

Step 5 — Complete Swagger KYC

In the Swagger tab:

Upload your government ID

Upload a utility bill

Complete the face motion check

Approval normally takes only a few minutes.

Step 6 — Make the Real Purchase (After KYC Approval)

Once KYC is approved:

1. Return to Keplr → USDC Noble

2. Click Buy again

3. Select Swagger

4. Enter the amount you want to invest

◆   Again, Swagger will ask for your Receiving Address

Go back to Keplr → USDC Noble

Click Receive

Copy your USDC Noble address

Paste it into the Swagger receiving address field

Submit the transaction

Your USDC Noble will arrive in your Keplr wallet.

Step 7 — Visit the Divine Ray ICO Site

Go to: https://ico.divineray.ca

Click Connect Wallet

Select Keplr

Choose USDC Noble when prompted

Step 8 — Enter Your Investment Amount

Type the exact USDC you want to invest.

Double-check the number.

Step 9 — Approve the Transaction

Keplr will pop up for confirmation.

Click Approve.

Your DRC allocation will instantly appear inside your ICO dashboard.

Step 10 — Retrieve Your DRC After the ICO Ends

When the ICO closes (January 15, 2026):
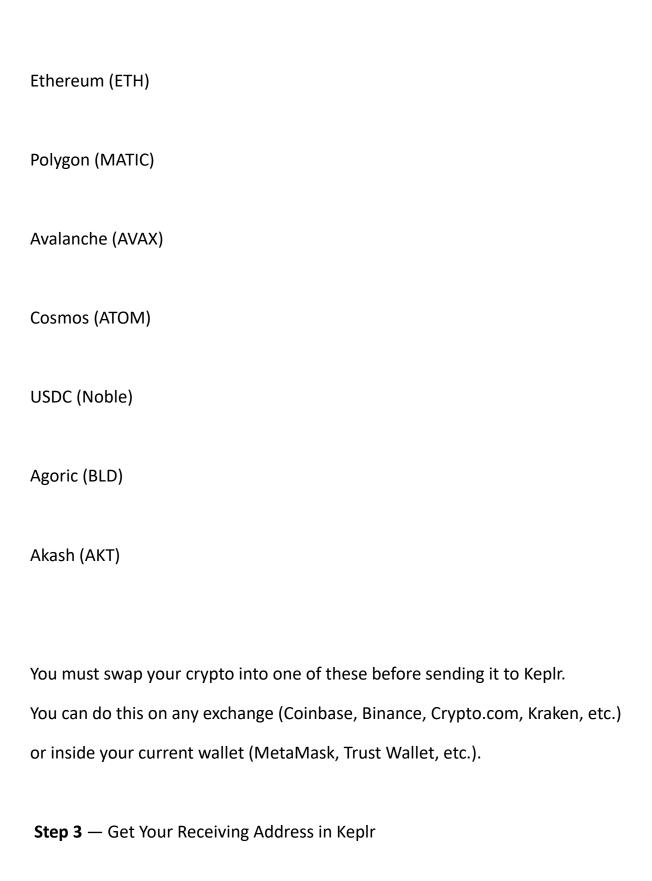

1. Return to https://ico.divineray.ca

2. Connect your wallet again

3. Click Retrieve Tokens

4. Your DRC automatically transfers into your Keplr wallet

**PART 2. ALREADY HAVE CRYPTOCURRENCY. How to buy DRC.**

How to Buy Divine Ray (DRC)

If You Already Have Crypto

This version is for people who already hold cryptocurrency on exchanges or other wallets and want a fast, simple way to participate in the Divine Ray ICO.

Step 1 — Download Keplr Wallet

Go to: https://www.keplr.app/

Install the browser extension or mobile app.

IMPORTANT: Save your 12-word recovery phrase somewhere safe.

If you lose this phrase, you lose your wallet forever.

 Step 2 — Decide Which Crypto You Will Send

Divine Ray ICO accepts 8 cryptocurrencies:

Accepted Assets

Ethereum (ETH)

Polygon (MATIC)

Avalanche (AVAX)

Cosmos (ATOM)

USDC (Noble)

Agoric (BLD)

Akash (AKT)

You must swap your crypto into one of these before sending it to Keplr.

You can do this on any exchange (Coinbase, Binance, Crypto.com, Kraken, etc.)

or inside your current wallet (MetaMask, Trust Wallet, etc.).

 Step 3 — Get Your Receiving Address in Keplr

Once you choose the coin you want to send:

1. Open Keplr

2. Search for the same asset inside Keplr

(example: ATOM, AKT, AVAX, etc.)

3. Click on the asset

4. Click Receive

5. Click Copy Address

This is your Keplr receiving address for that specific network.

 Step 4 — Send Your Crypto to Keplr

Now go to the wallet or exchange where your crypto is currently held.

1. Open the coin you want to send (ETH, MATIC, ATOM, etc.)

2. Click Send / Withdraw

3. Paste the Keplr receiving address you copied

4. Confirm the network matches:

ETH → Ethereum

MATIC → Polygon

AVAX → Avalanche

ATOM → Cosmos Hub

AKT → Akash

BLD → Agoric

USDC → Noble (USDC.noble)

5. Confirm and send

Your crypto will arrive in your Keplr wallet shortly.

Step 5 — Go to the Divine Ray ICO Website

Visit: https://ico.divineray.ca

Click Connect Wallet

Choose Keplr

Select the asset you funded your wallet with

Step 6 — Enter the Amount You Want to Invest

Type the amount of your crypto you want to contribute

Review carefully

Step 7 — Approve the Transaction

A Keplr approval window will open

Click Approve

Your DRC allocation appears instantly in your ICO dashboard

Step 8 — Retrieve Your DRC After the ICO Ends

On January 15, 2026:

1. Return to ico.divineray.ca

2. Connect your Keplr wallet

3. Click Retrieve Tokens

4. Your DRC will automatically transfer to your Keplr wallet
